Cannon Starts Parade

"HOOPLA PARADE"

A small, enthusiastic group of paraders toured Mattapoisett village streets on Saturday night after gathering on the town wharf to the sound of cannon shot. The group of costumed marchers then proceeded on the march route mounted in antique cars, buggies, hot rods and fire engines with Aquarius himself galloping the route barefoot. The good fun was enjoyed by spectators who first viewed the assembly at the wharf and then gathered on the route to watch the troop tour the town. All this was described as pre-ball "Hoopla" as a build-up for the Historical Society's ball next Saturday at the Shining Tides. The Society is planning to follow up last year's successful Carriage House Ball with an Aquarius Costume Ball featuring some very unusual innovations.

Mattapoisett Yacht Club

ANNUAL MEETING OF YACHT CLUB

The final event on the Mattapoisett Yacht Club calendar, the annual meeting, was held at the Yacht Club Sunday, August 31, following the Labor Day races. After a brief business meeting, the high point of the proceedings was the presentation of trophies and awards.

Trophies went to the first and second place winners in the June Series, July Junior Series, July Senior Series, Mattapoisett Regatta, August Junior Series, August Senior Series, Evening Series (combined July and August results) and in the two special races held July 4th and Labor Day.

Listed as junior award winners are: Dr. Potter Memorial Trophy, Andrew Bills; Lucy Agnault Award for Scholarship, Jane Morris; best racer in the Junior Sailing Training program, David Donald.

In conclusion, the following slate of officers was presented and accepted: George Fisher, commodore; Peter Briggs, vice-commodore; Philip McCarthy, rear commodore; William Potter, treasurer; Horace Darrah, secretary.

DISTINGUISHED RECTOR HEARD AT ST. PHILIP'S, MATTAPOISETT

The worship at St. Philip's Church, Mattapoisett terminated for the season last Sunday and at a point of climax. The Reverend John H. Soleau of Concord, Mass., guest rector, addressed himself to the individual life, lived in the context of commitment, and within the complex of social structure, the commitment coming first. The brief sense of being inside a Spiritual power-house drew such a silence from his listeners as is seldom experienced, and reluctantly broken.

Formerly professor of Pastoral Theology at Virginia Seminary and currently vice-president of "Consultation Services Inc." of Cambridge, Mass., Mr. Soleau is in immediate contact with workers in a wide strata of our society from young ministers to long established executives in organizations, educational, charitable and business. His message is a practical one, with divine interpretation. Agencies, to him, are not the God children of the church, but God inspired men have that responsibility.

The responsibility of the individual towards spiritual commitment became the moment of

Aquarius Ball

COSTUME BALL

The Aquarius Costume Ball, sponsored by the Mattapoisett Historical Society for the benefit of the Museum and Carriage House, will be held this Saturday, September 13th, from 9 to 1 at the Shining Tides. The Neptune Ferry will transport guests across the harbor from Long Wharf to the float at Shining Tides for those desiring to attend by boat.

Prizes will be awarded by 5 local judges during the Grand March for colorful, original and outstanding costumes. Refreshments will be served by a large committee under the direction of Mrs. Murray DeCoffe. Music will be by Joe Ponte's orchestra.

Other features will be amateur astrologers in booths throughout the dance area, and token souvenirs for all attending.

Master of ceremonies will be Attorney Donald J. Fleming. Mr. Philip Kelsey is designing wall murals and the galaxy of stars and booth decor and lighting will be under the direction of Mrs. David H. McCormack.

Admission is by reservation only. Call one of the following committee members: Mrs. Clifford I. Tripp, Jr., chairman, 758-2164; Mrs. Giles Dunn, 758-2810; Mrs.

Bulldog Boosters

"TWENTY-ONE MORE"

"Twenty-one More".....This is the goal that members present at last week's meeting of the new Old Rochester Booster All-Sports Club set for themselves before the next meeting on September 18th.

There were twenty-one families represented - a good sign that people are really interested in an all-sports club. Present also were the principal, Mr. Frank Gifune; the varsity football coaches and their wives; and the athletic director, Robert Gardner and Mrs. Gardner.

This year the Boosters Club, with the assistance of the Home Economics Department, will have its own concession stand at all home football games. A large wooden stand has been donated to the club by Mr. Edward Sylvia of Mattapoisett, and under the direction of President, Joseph Sullivan, members will spend the next two weeks getting it freshly painted and ready to go. All proceeds will go to the athletic department, the Home Economics Department and the Boosters Club.

The group was informed by Mr. Gardner that on September 20th, Saturday, the athletic department will hold a "Bulldog Parents and Friends Sports Clinic" at the high school from 9:00 A.M. to 12:00 noon. Taking part in this clinic will be the varsity and freshman football squads, the cheerleaders, the girl's hockey team, the O.R.R. marching band and the Cross Country track

OUTBREAK OF HONG KONG FLU EXPECTED

Last winter, Massachusetts and forty-three other states had widespread outbreaks of Hong Kong Asian influenza. The other six states were less extensively involved. In Massachusetts, about thirty per cent of the population became ill with the Hong Kong flu. It is expected that another outbreak of Hong Kong Asian influenza will appear in our state this winter, but that it will be much less extensive than last winter.

The last outbreak of Influenza Type B in Massachusetts occurred four years ago during the winter of 1965-66. Influenza B appears in epidemic cycles every three to six years. It has not appeared in Massachusetts in any significant amount during the past three years, so we can expect influenza B

to appear in Massachusetts this coming winter in mild epidemic form.

Therefore, Hong Kong Asian influenza and Influenza B are expected to visit us this winter, probably beginning in December.

Immunization is advised particularly for the following groups of people: Persons in the older age group -- fifty years of age or older, persons in nursing or convalescent homes, rest homes and other facilities where elderly people may be residing, persons of any age who have a chronic disease, such as cardiovascular, pulmonary, renal or metabolic disorder which include patients with rheumatic heart disease, arteriosclerotic heart disease, hypertensive heart disease, congenital heart disease, asthma, chronic bronchitis, bronchiectasis, pulmonary-fibrosis, pulmonary emphysema and pulmonary tuberculosis, chronic nephritis or other kidney disorders, diabetes and Addison's disease.

Vaccinations should begin as soon as possible after September 1st and consist of two injections, the second injection administered one or two months after the first one, and the injections should be completed before Christmas. If time does not permit, the second injection may be given two weeks after the first one.

Persons who were immunized with the Hong Kong flu vaccine last winter need only have a booster injection.

SHELLFISH STUDY REPORT

The Department of Natural Resources Division of Marine Fisheries have sent Mattapoisett Selectmen a report which is the result of an excellent study made this summer by H. Arnold Carr, shellfish biologist from the Sandwich office of the Marine Fisheries. Mr. Carr worked this summer with Augustus Silveira, Mattapoisett Shellfish inspector, in a survey of all shallow water quahog beds in the town. The resulting report now in the hands of the Selectmen gives recommendations that certain areas be closed for planting and advice on how to do the seeding. The report also advises Selectmen of the areas where shellfish are plentiful. The report will be the basis for future shellfish propagation.

DOG LAW YEAR ROUND

Loose dogs have been observed in Mattapoisett. Selectmen wish to remind residents that the Dog Restraining Law is in effect year round.

JURORS CHOSEN

Two Mattapoisett jurors have been chosen for the Criminal Session in Brockton starting October 6th. Mrs. Madeleine L. Furnans of Water Street and Joseph A. Bauer of Jane Lane will attend this session.

The student plan is administered for over 350,000 Massachusetts students by Lester L. Burdick, Inc. of Boston, well-known as the administrators of insurance for over 600 professional and business groups.

There are two choices of coverage. 1. The Schooltime Plan, covering accidents on school time. 2. The 24-52 Plan, a full-time, year-round comprehensive coverage. This year, teachers will also be able to have the 24-52 Plan.

Football players (athletes) are insured under a separate policy taken out by the school department. They also receive brochures describing this coverage.

Superintendent Kunces emphasizes that the School Department takes all possible precautions to prevent injuries and to teach safety, but cannot accept the responsibility of paying the cost of medical and dental expense resulting from school injuries.

As an adjunct to the school's safety efforts, the Burdick Plan makes available their Safety Education Program of colorful and instructive safety posters, calendars and outstanding films by Walt Disney and others. Statistical reports analyze each group's accidents for trouble spots and trends.

If the total medical expenses of a claim are less than $50, the medical expenses are reimbursed regardless of other insurance; if the total medical expenses exceed $50, the plan takes up where other compensable insurance, if any, leaves off.

Assistance in answering any questions about the plans is available by contacting the Burdick office.

Cosmopolitan Group welcomes students, former Peace Corps workers, newly arrived teachers in the area, and other adults who are interested in international outreach. International students are cordially invited.

Anyone attending the reunion meeting interested in "Career Opportunities As An Artist" is invited to hear Mr. Larry Frates speaking at the Cymanfu Coffee House at the Y the same evening. Mr. Frates was art instructor at Camp Echo this summer and is a student as Massachusetts College of Art.

The Wednesday Social Luncheon will resume September 17th. These luncheons are for all women who enjoy coming to the Y and meeting friends in the cozy dining room after a shopping trip, or for just a change. Lunches are usually available, but one may bring her own snack. Coffee is always on sale. Frequently a speaker is scheduled.

USO Junior Volunteers are in need of more members, and young women 18-25 years of age who are high school graduates, career girls or college students are urged to consider this program that offers fun and community service. Mrs. Grace Young, director USO program, will be pleased to talk over the program with prospective members. Call her at the Y.

Power Through the Ages

As mankind enters the age of atomic power, it is well for him to consider how this era might affect the complexity of life in the future. Predictions are difficult. We do know, however, that the development of new power sources in the past meant a higher degree of specialization and sophistication in the lives of our forefathers.

If all the machines ever invented were set up in a row, they would forever remain a silent mass of useless parts without a source of power. Whether we turn to muscular power, water, steam, electric or atomic, the saga of power through the ages is endlessly fascinating.

A man cannot budge a boulder with his bare hands. But when he pushes a crowbar beneath it, props a rock under the crowbar, to serve as a fulcrum, then pries downward, the boulder moves. This discovery prompted an early Greek, Archimedes, to boast that he could move the world with a simple

lever.

Today, of course, machines do much more than move boulders. Yet the moving parts of all mechanical devices can still be reduced to combinations of five "simple machines" known to the ancient Greeks -- the lever, the wheel and axle, the pulley, the inclined plane and wedge, and the screw.

A Roman engineer of the First Century, B.C. put machines to serious, heavy work. He turned a crude wheel on edge and thus invented a basic prime mover, the vertical waterwheel. The wheel came into use during a time when the Roman population was clamoring for cheaper bread. In the Fourth Century, flour mills were built that produced 28 tons of flour in one 10-hour day, enough for 80,000 people.

It was water -- and the waterwheel -- that continued to be man's single greatest source of power until the coming of steam. As waterwheels were improved, they powered machinery that sawed wood, pressed olives and processed cloth. Water power could also be harnessed for the rich gold, silver, copper, iron, zinc and lead mines

In the 17th Century, discoveries established the facts that water, when boiled, becomes provide steam for submarine turbines.

Lest the spectacular advances made in power awe the individual, he might pause and reflect upon a saying from the Bible. "The race is not to the swift, nor the battle to the strong," according to Ecclesiastes. Such a sentiment can only temper what in

EXECUTIVE BOARD

The executive board of the Mattapoisett Congregational Church Couples Club will meet this Sunday, September 14th, at the home of Mr. and Mrs. Norman Atkinson, Holly Woods.

MATTAPOISETT WOMAN'S CLUB bowling league will start Monday, September 15th, at 1:30 P.M. at Bowlmor.

A THANK YOU

We wish to express our sincere thanks to relatives and friends for their sympathy cards, flowers and many kindnesses during our recent bereavement.

Mrs. Kenneth Winslow and family.

Our comprehensive service agreement helps guard you against heating worries and it can lower heating costs these three important ways:

1. By making sure your burner is tuned for peak efficiency—to help give you maximum heat from every gallon of fuel.
2. By catching little troubles before they can become big ones. A small adjustment in your heating system now may save you a lot of money later on.
3. By insuring you against repair bills. Our service agreement takes care of them automatically.

For complete details about our burner service agreement—and about our many other services—call us today at the number below.

many instances has become man's worship of power.

Today, human comfort and convenience hinge on machines powered by water or steam. It brings energy to homes for doorbells, lights, telephones, radio and television. Electric toasters, coffee makers and heaters are common. Many homes have electric cooking ranges.

A key facility of the nation's essential power industry is the more than 100,000,000 wood utility poles now in use in the United States. These poles support the electric wires that deliver the nation's electricity to homes, farms and industry. They are pressure-treated so that they give efficient service for more than 35 years.
